LETTER

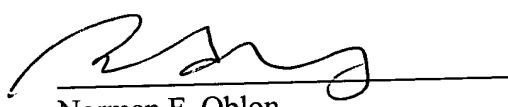

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Submitted herewith is a European Search Report for the Examiner's consideration. The references cited therein have been filed in the U.S. Patent and Trademark Office on March 22, 2001 and October 21, 2002.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,

COMMUNICATION

The European Patent Office herewith transmits as an enclosure the European search report for the above-mentioned European patent application.

If applicable, copies of the documents cited in the European search report are attached.

☒ Additional set(s) of copies of the documents cited in the European search report is (are) enclosed as well.

The following specifications given by the applicant have been approved by the Search Division:

☐ abstract

☐ title

☒ The abstract was modified by the Search Division and the definitive text is attached to this communication.

The following figure will be published together with the abstract:

ABSTRACT / ZUSAMMENFASSUNG / ABREGE

01302708.1

The present invention provides polynucleotides comprising SEQ ID Nos. 1 to 4. These polynucleotides have a polymorphism which can be used for the prediction of validity of interferon therapy individuals infected with the hepatitis C virus. The present invention also provides vectors and methods using these polymorphic polynucleotides for gene therapy and for the generation of non-human transgenic animals.
